

# AMFICO SPEC-teck Connectors™

## 1/2" Alloy Steel , Zinc Plated

## TECK Series Industrial SPECgrade

### SPEC-teck Alloy Steel Connectors

Manufactured in the USA

Specifically Designed for Use with PVC Jacketed MC, TECK Cable

One Connector Accommodates a Wide Range of Cable Sizes

#### Application:

Connector provides a unique liquid tight connection for PVC Jacketed MC Cable.

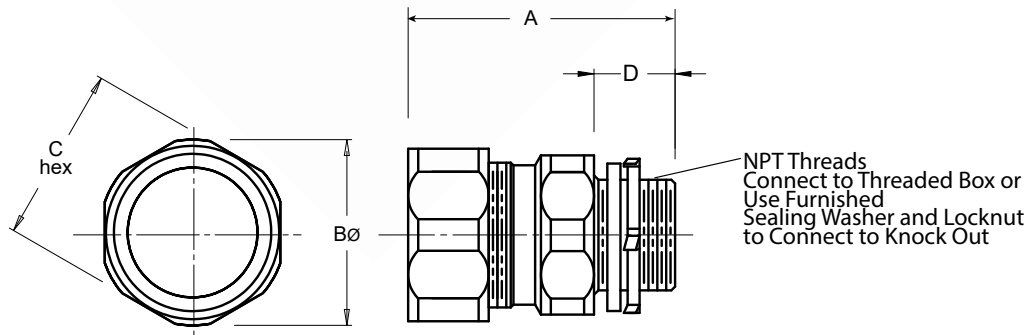

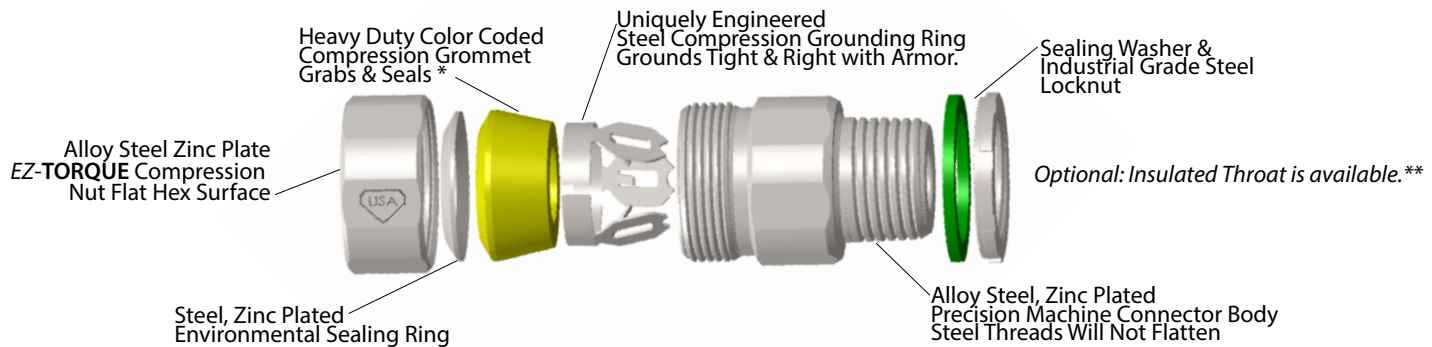

No tools required to install connector, simply terminate cable according to wiring instructions and snap it into place.

Each connector is furnished with three color-coded grommet sizes to accommodate different size MC cable diameters as shown below.

Material: Alloy Steel Construction furnished with industrial grade zinc plating and industrial grade steel locknut.

Optional: Insulated Throat is available.\*\*

Perfect for parking decks, our industrial spec-grade connector is the RIGHT CHOICE for PVC Jacketed MC or Teck cable.

Cat. #	Hub Size	Range Over Jacket OD Min - Max	Grommet * Color to Use	'A' Length	'B' Diameter	'C' Hex	'D' Length	Wt Per 100
TECK50 *	1/2"	.610 - .720	Black	1-31/32"	1-3/16"	1-1/8"	19/32"	20
TECK50 *	1/2"	.560 - .610 (I)	Grey	1-31/32"	1-3/16"	1-1/8"	19/32"	20
TECK50 *	1/2"	.000 - .610	Yellow	1-31/32"	1-3/16"	1-1/8"	19/32"	20

\* Part is packaged with three different color coded grommets to accommodate cable ranges as shown above. (I) Grey installed.

\*\* Add Suffix "B" to cat.number for insulated throat.

Sold in cartons of 25 with each connector individually packaged with grommets and instructions.
