

Discover the AMFICO Advantage to Buying Solid Steel Machined US Manufactured Fittings

We manufacture in New Jersey the finest and most cost effective electrical conduit fitting on the market. Solid USA steel and machined turned parts guarantee you faster installation and unique design characteristics not found in typical inferior die cast products. No other manufacturer world-wide can provide our superior product and integrity of manufacturing consistency. When it comes to electrical fittings consider the first name in American manufactured products, American Fittings Corp. sold exclusively through electrical distributors. For more information contact your local distributor or visit us online www.americanfittingscorp.com.

Fully Automated Screw Machined Fittings
Hold conformity, tolerances, and quality that are not available in thin wall die cast products

World Class Machining Operations
The highlight of our 96,000 sq. ft. facility is our manufacturing and machining operations. It is our belief that no other manufacturer worldwide can provide the volume of solid steel fittings

Main Warehouse in New Jersey
On time, service is our trademark, with 9 other strategic warehouses in the US and a national distribution channel, an AMFICO Made in US fitting is always available for your projects

We Manufacture a Full Range of US Made Electrical Fittings.

EMT CONDUIT FITTINGS Manufactured in the USA

The Finest EMT Fitting in the World
Comes from the USA, AMFICO
Trust One Name for Quality, Value & Service

Full Compliance with Buy American Act and American Recovery & Reinvestment Act of 2009

Since 1946, AMFICO has grown from a small NJ company to a nationally recognized brand that stands for superior US manufactured product and outstanding customer service. At the center of every fitting are two things American manufacturing and employee commitment. Trust One Name, AMFICO

AMFICO

Made in the USA Since 1946

EMT Connectors Compression Type

- For connecting & bonding electrical metallic tubing to a box or enclosure
- Concrete tight 1/2" to 4"
- Screw machined steel, zinc plated
- 2 - 1/2" to 4" malleable iron

EMT Connectors Compression Type					
Cat. #	Throat Bushing	Size	Unit Ctn	Std Pkg	WT/100
EC750US	*	1/2"	50	250	8
EC751US	*	3/4"	25	250	12
EC752US	*	1"	20	100	19
EC753US	*	1-1/4"	5	50	30
EC754US	*	1-1/2"	5	25	46
EC755US	*	2"	5	25	55
EC756US	*	2-1/2"	-	5	217
EC757US	*	3"	-	3	260
EC758US	*	3-1/2"	-	3	332
EC759US	*	4"	-	2	377

EMT Couplings Compression Type

- For coupling two ends of electrical metallic tubing
- Concrete tight 1/2" to 4"
- Screw machined steel, zinc plated
- 2 - 1/2" to 4" malleable iron

EMT Couplings Compression Type					
Cat. #	Size	Unit Ctn	Std Pkg	WT/100	
EC760US	1/2"	50	250	8

SS69US	4"	-	2	283	

EMT Connectors Compression Type - Raintight

- Rain and concrete tight 1/2" to 4"
- For use in wet locations to ground and secure EMT raceway boxes and enclosures
- Connector utilizes internal and external sealing rings to prevent entrance of water or moisture
- Screw machined steel, zinc plated

EMT Connectors Compression Type/Raintight					
Cat. #	Throat Bushing	Size	Unit Ctn	Std Pkg	WT/100
EC750USRT	*	1/2"	50	250	8
EC751USRT	*	3/4"	25	250	12

Key Product Features

- Buy with Confidence – The manufacturing and assembly of the parts featured in this EMT Product bulletin fully conform to the **Buy American Trade Agreements Act and the American Recovery and Reinvestment Act (ARRA)** and section 1605 of that Act, Public Law 111-5. A requirement for all federally funded projects and many state and municipal jobs
- AMFICO EMT fittings are all steel construction and are manufactured from US made bar stock, then brightly zinc plated for corrosion resistance
- Fittings are fully machined providing a uniformed product without the characteristics downside of inferior die cast thin wall fittings
- All connectors are furnished with our uniquely designed **UL component locknut that will tighten without deforming the fitting and will not vibrate loose.** The design of the fitting and locknut allow for fast extended reach to lock and bond the fitting on thin wall box or enclosure. A full size range of replacement locknuts are available
- Tested and approved to **MIL-STD-810 Sinusoid Vibration** requirements American Fittings is the only manufacturer to have this approval

- Solid steel construction distinctively designed and manufactured provides for a fast and secure installation not found in typical thin wall fittings
- All connectors are available with or without an insulated throat* (bushing). This nylon insulator (bushing) is a UL component that protects conductors, decreases wire-pulling effort, and averts fitting thread damage during installation
- AMFICO Raintight connectors are UL Listed for Rain Tight and are ideal for use in wet locations when connecting EMT conduit and enclosures
- Our EMT set screw fittings will provide a concrete tight connection when the set screw is taped
- A full range of conduit hangers with bolts and EMT steel straps are available to secure and support EMT conduit to a mounting surface
-  In addition to UL and CSA Listings, AMFICO fittings meet MIL-STD 810 DOD testing for vibration, a requirement in many federal and state facilities mounting surface

*Note: Add "B" to Cat # for an EMT Fitting with an Insulated Throat Bushing: ie: EC750BUS or SS50BUS

*Note: Add "B" to Cat # for an EMT Fitting with an Insulated Throat Bushing: ie: EC750BUS or SS50BUS
